

# IVD-P™

## Intelligent Voltage Detector

Elevate safety and efficiency in your substations and distribution environments with IVD-P (Intelligent Voltage Detector). Harnessing intelligent technology, it offers real-time, accurate voltage detection, ensuring proactive risk mitigation. Streamline operations, enhance safety, and maximize ROI with IVD-P – the ultimate solution for modern power utilities.

## Highlights

- ▶ Tridimensional sensors for accurate voltage detection
- ▶ Sound and LED alarm notifications
- ▶ 9V battery with easy compartment access
- ▶ Universal hotstick connector
- ▶ Multi-range from 120 V up to 769 kV
- ▶ Selectable favourite ranges
- ▶ 50/60 Hz & 16 2/3 Hz
